

It has been brought to our attention that you may have heard or read inaccurate and misleading information circulating in our community about the possible sale of school district property.

Please let me assure you, the Board of Education is not planning to place on the market any property currently owned by the North Merrick School District. If that were the case, this would require approval by the North Merrick residents before a sale could be pursued.

Several months ago, as part of their fiduciary responsibility to the community, the Board explored all potential revenue options, including the pros and cons of selling district owned land. After carefully analyzing all options, it was decided not to move further in any discussion about the sale of property.

As we approach the budget vote and Board of Education trustee election on Tuesday, May 21, it is important that all residents are informed with the facts before voting.

If you need information about our school district or have any questions, please visit our website at [www.nmerrickschools.org](http://www.nmerrickschools.org) or contact the Superintendent's office at 516-292-3694. Please remember to vote on Tuesday, May 21. Thank you.
